

ENTERPRISE SALES INTELLIGENCE DASHBOARD

Executive-level overview of revenue, profitability, customer mix, and operational performance derived from end-to-end sales data analysis.

Key Executive Insight

Bronze customers generate nearly 50% of profit, driving overall performance. Net profit remains strong, but high regional returns and profit dips in Dubai and NSW-Tokyo need attention.

ENTERPRISE DATA MODEL OVERVIEW

Centralized star-schema data model integrating sales, customers, products, locations, and employees to enable scalable, high-performance analytics.

Key Executive Insight

A well-structured star schema with a single fact table ensures efficient filtering, accurate cross-functional insights, and consistent performance across all executive dashboards.

REVENUE OVERVIEW

Despite elevated COGS, disciplined pricing and strong sales volume sustain healthy profitability across categories and customer segments.

Key Executive Insight

High COGS is offset by volume-led growth and controlled discounting, sustaining net profit. Bronze customers and metal-based products remain the strongest profitability drivers.

 **harsh-soni-data-analyst**

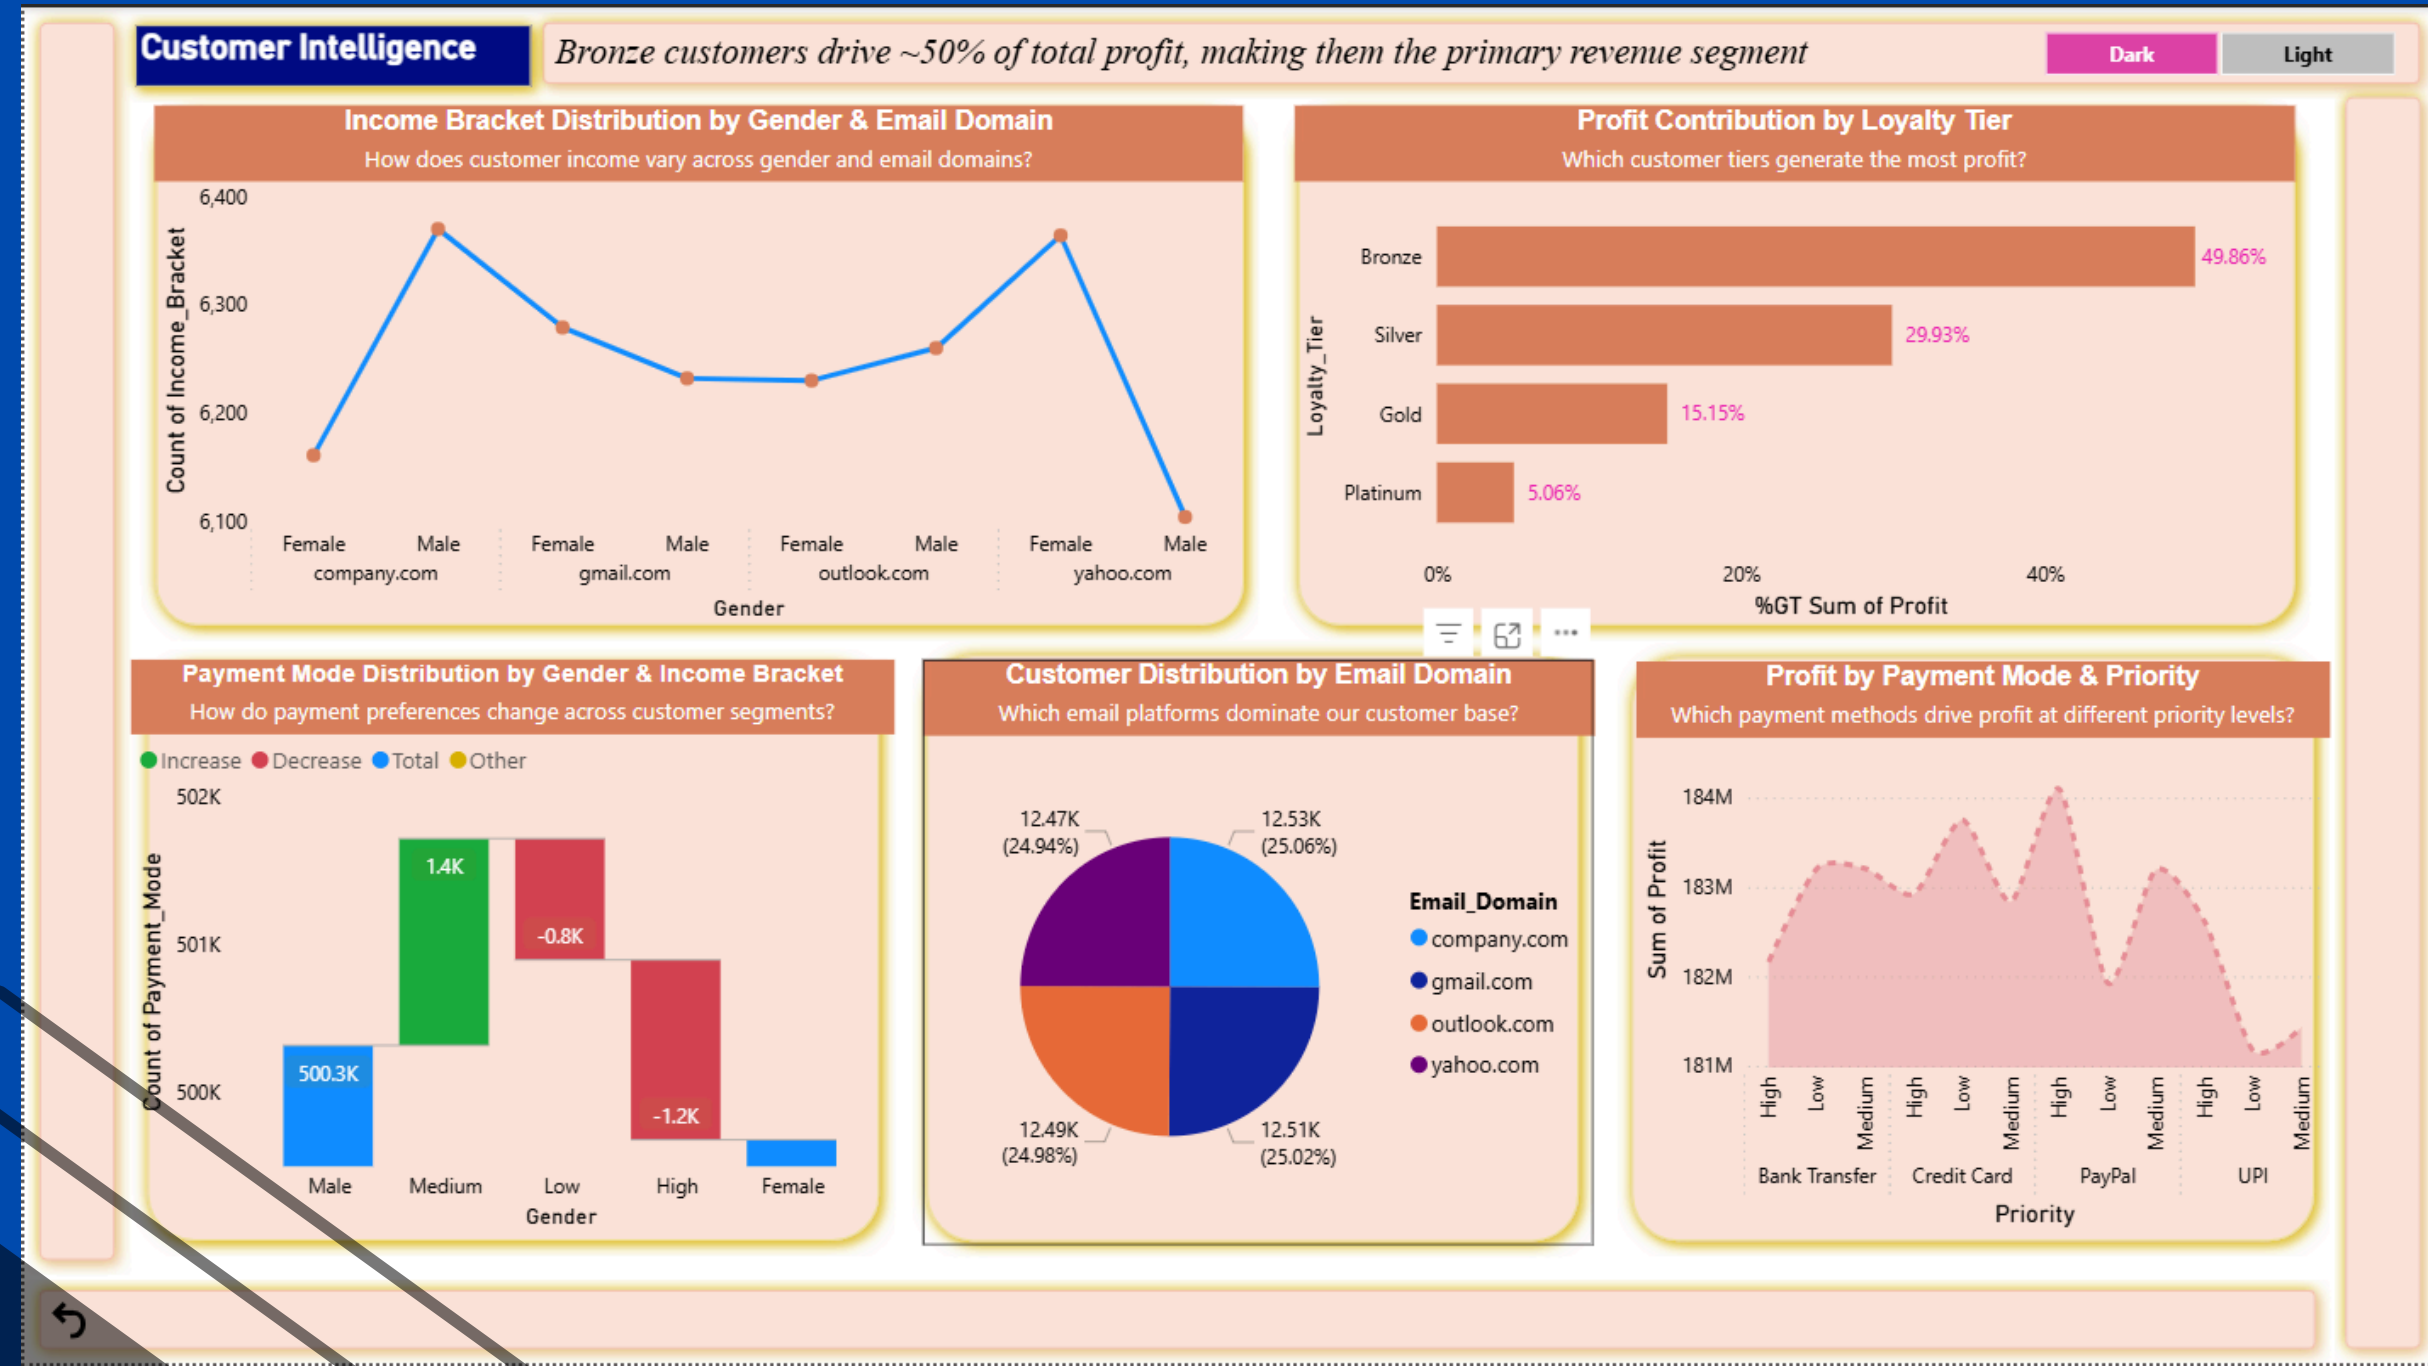

CUSTOMER INTELLIGENCE

Customer profitability patterns across loyalty tiers, demographics, payment behavior, and engagement channels to identify high-value segments.

Key Executive Insight

Bronze-tier customers contribute nearly 50% of total profit, making them the primary revenue drivers. Silver and Gold segments offer clear upsell potential through targeted engagement strategies.

Light Mood

PRODUCT PERFORMANCE INTELLIGENCE

Insight into product-level profitability, brand coverage, regional performance, and material allocation to identify high-impact and low-efficiency product segments.

Key Executive Insight

Profit is highly concentrated in a limited set of top-performing sub-categories such as T-Shirts, Tables, and Chairs indicating strong revenue drivers but elevated dependency risk.

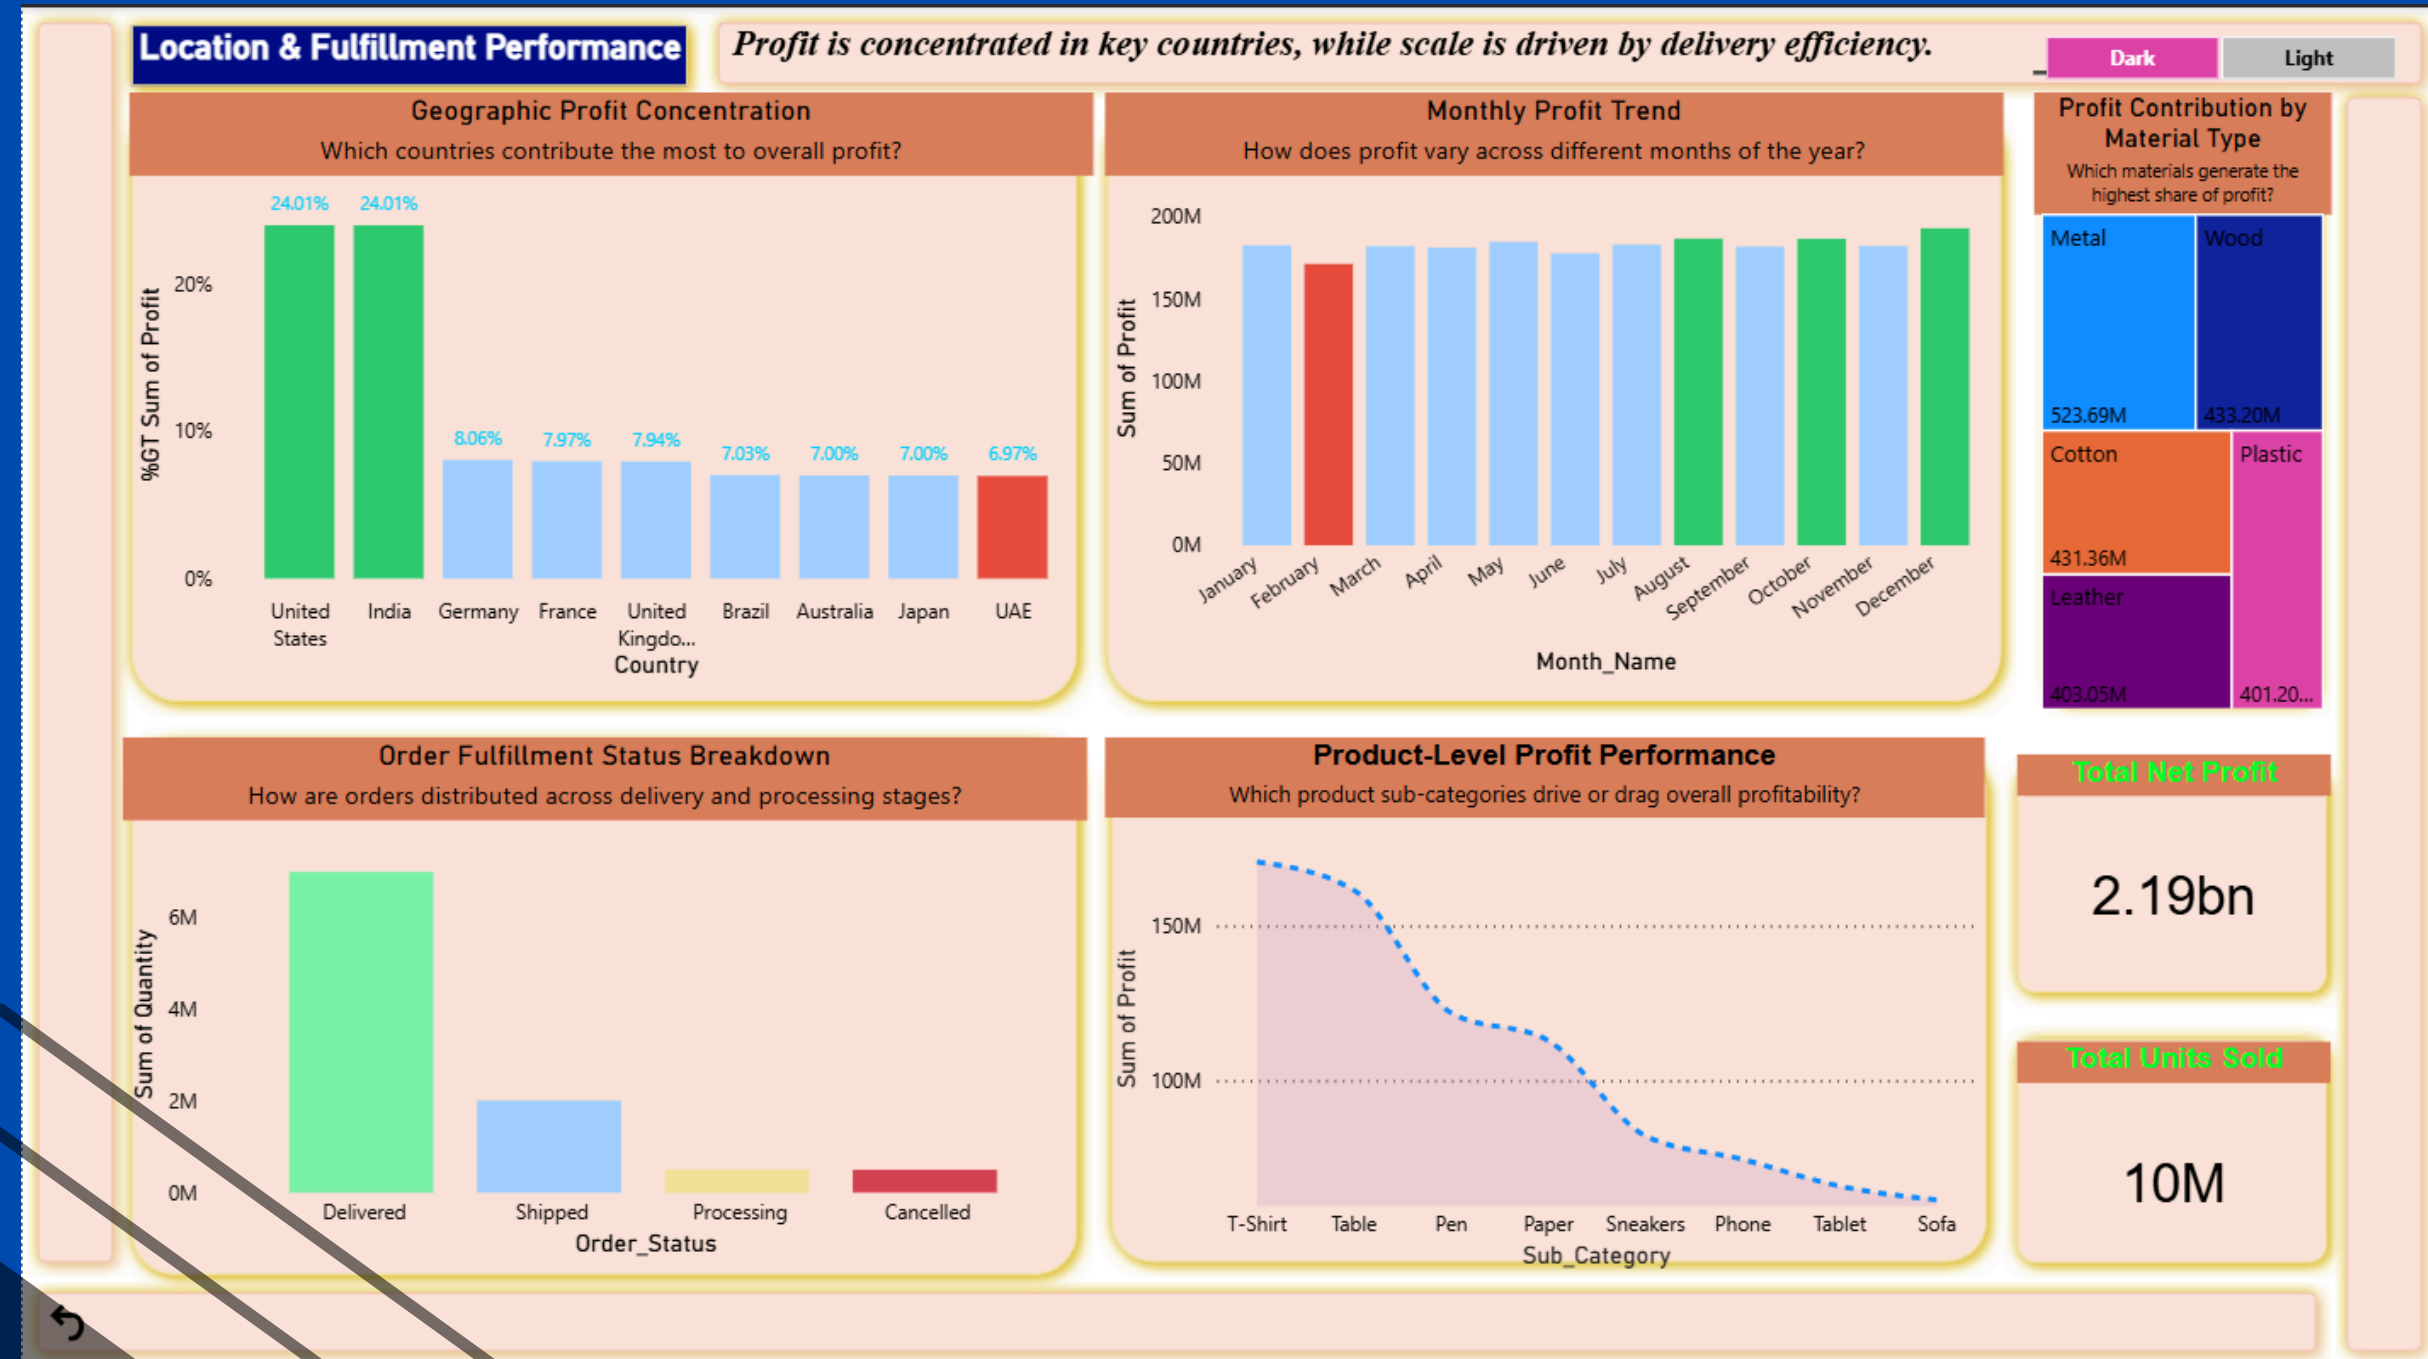

LOCATION & FULFILLMENT PERFORMANCE

Analysis of geographic profit concentration, monthly profitability trends, material impact, and order fulfillment efficiency across key markets.

Key Executive Insight

Profit is highly concentrated in the **United States and India**, while consistent monthly performance and strong delivery completion indicate that operational efficiency is the primary driver of scale.

ENTERPRISE SALES INTELLIGENCE DASHBOARD

Despite elevated COGS, disciplined pricing and strong sales volume sustain healthy profitability across categories and customer segments.

Key Executive Insight

Profitability is anchored by Bronze-tier customers contributing nearly 50% of total profit. While overall margins remain strong, elevated returns and consistent profit dips in Dubai and NSW-Tokyo demand corrective action. Bronze customers generate nearly 50% of profit, driving overall performance. Net profit remains strong, but high regional returns and profit dips in Dubai and NSW-Tokyo need attention.

What I Do as a Data Analyst

Data Analytics & BI

Turning raw data into actionable business insights.

Power BI Dashboards

Interactive, executive-level dashboards with Dark & Light theme toggle.

Data Modeling & DAX

Star schema design and optimized DAX measures for performance.

Data Cleaning

Reliable, analysis-ready data using Power Query.

SQL Analysis

Joins, aggregations, and queries for deep insight extraction.

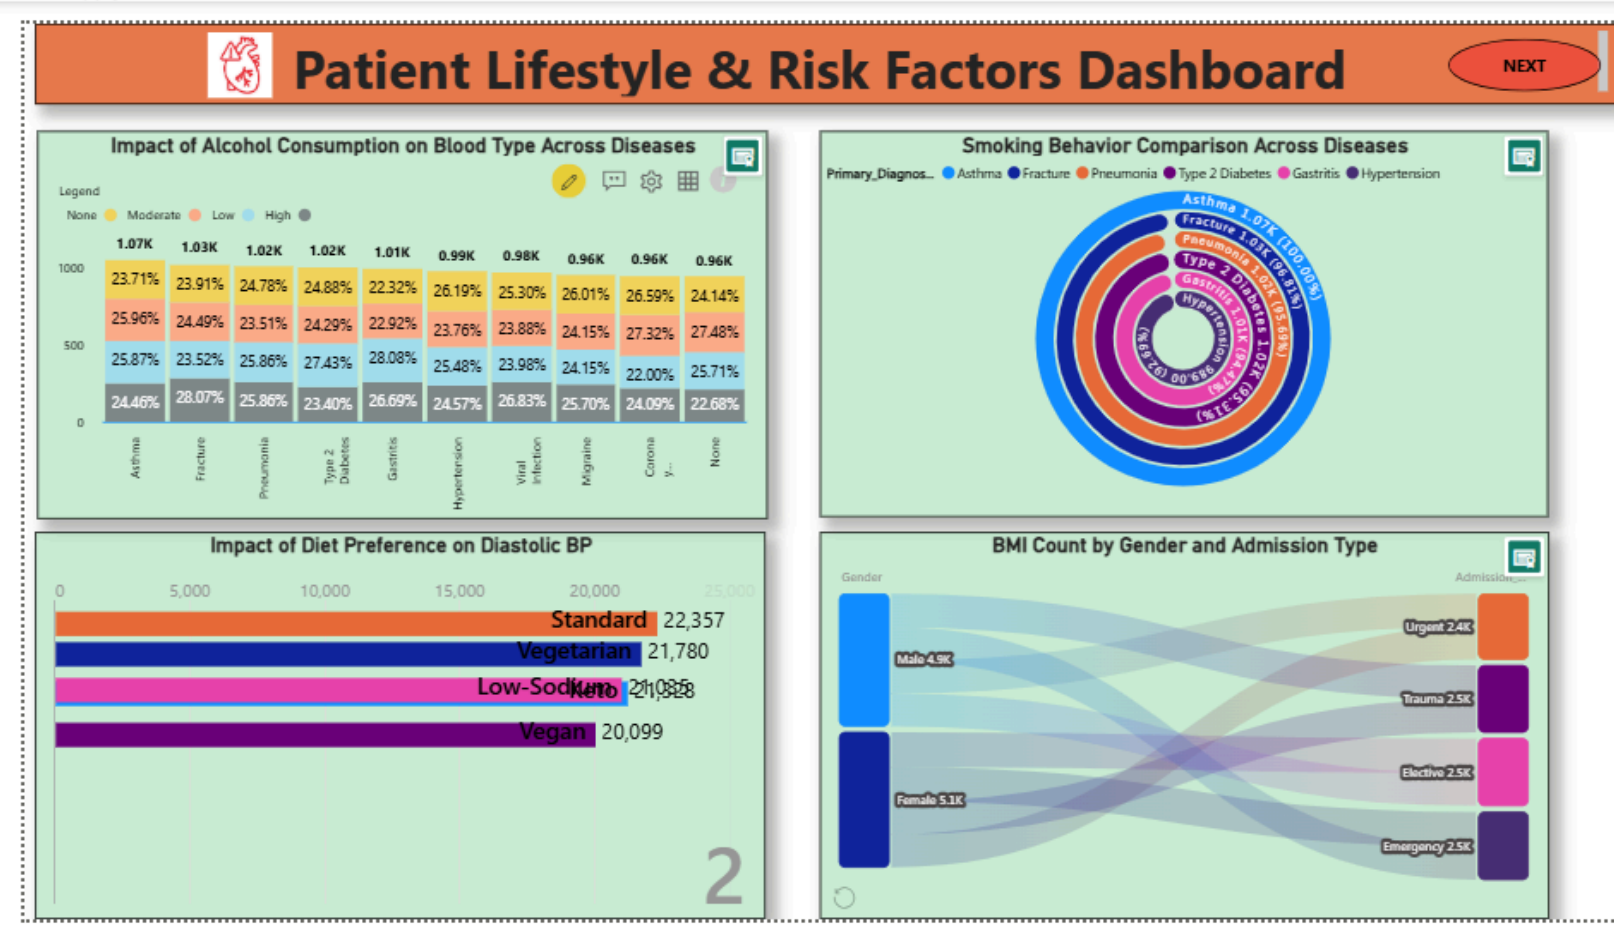

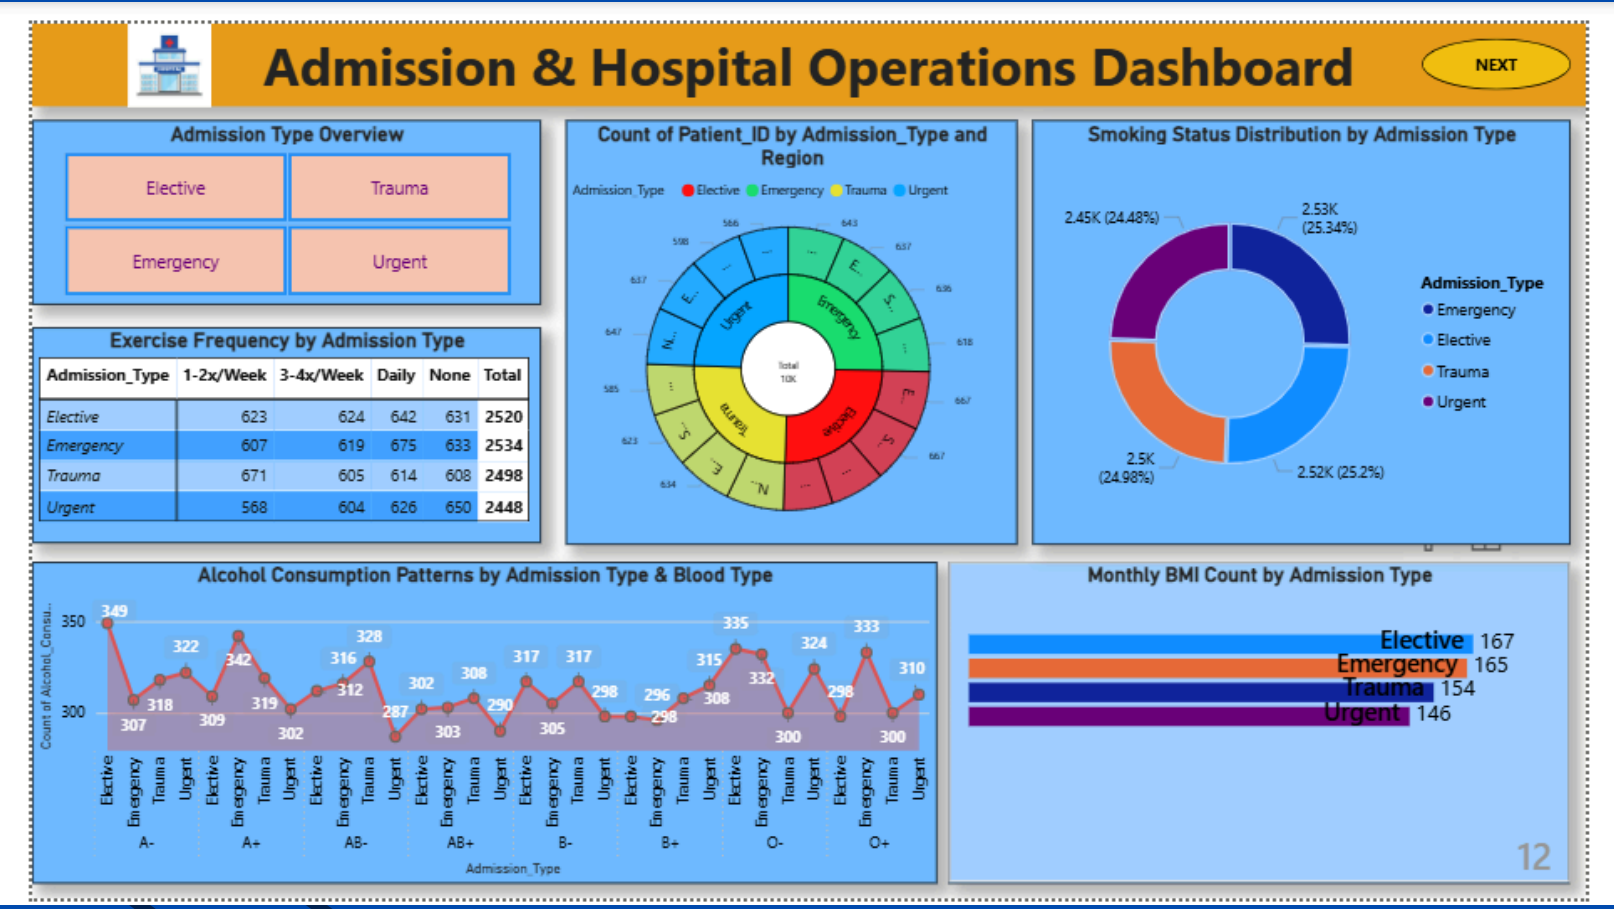

KPI & Storytelling

Translating business KPIs into decision-ready narratives.
